PRODUCT
CATALOGUE

www.jasic.co.uk

5 million dollar investment into cutting edge integrated Test Laboratories on site
Jasic equipment undergoes 42 individual tests to meet high quality standards

Manufacturing over 200 different equipment models on site

Production capability of 1 million machines per annum

4 centre strong Research and Development Facilities have been ranked as the most progressive R & D enterprise in the Pearl River Delta Region

In 2017, Jasic were awarded the first welding laboratory UA certification in China from TÜV Rheinland

Jasic Technology Co. Ltd

JASIC is an international developer, manufacturer and supplier of welding inverters and integrated welding solutions that represent value, reliability and innovation. An international sales network in 60 countries - JASIC has a worldwide reputation for providing the best quality with exceptional service.

In March 2011, JASIC was successfully launched on the Shenzhen stock exchange and now has realistic ambitions to become the largest manufacturer of welding inverters in the world today.

JASIC has a certified ISO 9001, 14001 and 45001 quality management system and a product range that fully complies with CE, UKCA, RoHS, C-TICK, CSA and CCC standard.

One of the UK's largest and most dynamic independent suppliers of industrial equipment

Wilkinson Star is the exclusive UK importer of Jasic equipment and is a service led, expanding force in the welding industry since its formation over 35 years ago.

We present JASIC - striking looks, simple operation with highly advanced electronics...

supported by the very best after sales service in the industry...

Join the Journey - Join JASIC

Wilkinson Star Limited

@jasicuk

QUALITY “ JASIC inverters comply with the most stringent quality and safety standards ”

Every inverter is comprehensively inspected with 42 test procedures in R & D testing laboratories on site

Vibration Testing

Waterproof Testing

High/Low Temperature

Conducted Emission Disturbance Testing

Electrostatic Prevention Testing

Metallic Dust Testing

Harmonics & Flicker Test Laboratory

“ JASIC has invested 5 million dollars into cutting edge integrated test laboratories and owns 4 Research & Development Centres in China with more than 60 patents. JASIC'S 30,000m² Research & Development Centre has the most complete and advanced test laboratory to guarantee JASIC product quality and commitment to new technology. ”

All products endure 42 different tests of equipment: EMC tests, environmental and reliability testing, safety tests, functional performance tests, white box limit tests, thermal tests, auto-testing platform, component/device test, welding processing test, arc ignition/cutting experiments, welding material metallographic examination tests, high speed photography test in welding process along with all the in-depth testing within each test area.

MANUFACTURING

JASIC'S manufacturing site is over 80,000m² and is arguably the largest and most modern inverter manufacturing base in China. The production capacity is 1 million units per year. JASIC'S Welding Engineering Centre offers several brand new advanced auto production lines, supporting auto chip moulder, auto insertion machine and comprehensive debugging cabinet to achieve highly advanced manufacturing production. The manufacturing site is equipped with 13 auto welder assembly lines with self-recovery tooling plate function, 2000m² SMT & AI workshop (temperature, humidity and dust control, relative clean workshop), 10,000m² PCBA workshop (Epoxy self-levelling floor anti-static production workshop).

“ Over 795,000 models manufactured to date in 2016 ”

Here we consider
some users
questions
before purchase

Q: How do I register?

A: It's so simple . . . visit our website www.jasic.co.uk and head to the register tab on the home page

Q: Can I have my machine validated as I am working to EN50504:2008 and I need to provide certification?

A: Yes, we offer a full validation service and we recommend you book for this at the time of purchase. For a small fee you will have peace of mind that your machine complies with welding procedure requirements.

Q: We employ a team of 40 welders, can you provide training on our new JASIC products?

A: Yes, we can offer full on-site professional training on all equipment from our dedicated team or if you prefer, why not visit our JASIC Training Academy in Manchester - where our trainers can take you through the practical and theory aspects of your weld.

Q: Sometimes things go wrong - we have a large order to fulfil and think we may have a problem with the kit, what should we do?

A: Firstly, we ask you to call our dedicated technical support line on 0161 728 7901 as our over the phone advice may be all you need to get you up and running. If not, we employ the best solutions to get you back up and running. Through our highly trained technician support team in Manchester, Swindon and Cramlington customer care is our byword and your productivity is our priority.

THERE IS NO COMPROMISE ON THE QUALITY OF JASIC EQUIPMENT . . .
SUCH IS OUR CONFIDENCE IN THIS TECHNOLOGY
WE OFFER AN UNPARALLELED 5 YR WARRANTY ON ALL MODELS

Q: Can we return the equipment? Who covers the cost of this?

A: Yes, Wilkinson Star will arrange at its expense to collect and return equipment from the distributor (UK Mainland) which is under warranty.

Q: So purchasing this product sounds like it will give me total peace of mind in that it's been through rigorous quality testing in manufacture. You've sold thousands of units and in the event of a problem you can fix it swiftly and efficiently. Sounds like a good investment.

A: Absolutely, we sell quality and our investment in pre and after sales service is paramount to us in the future growth of the product. We know you will be pleased with your purchase and enjoy many years of quality welding with JASIC.

“ We are serious about product quality. Sound performance and reliability is what you can expect from our products ”

Q: So this is a true 5 year warranty?

A: Totally, we believe we are the only company in our industry who can offer a true 5 year warranty as no one can match us on the investment we've made to support the sale and service of this quality equipment.

The Jasic Arc 140 MMA welding inverter is equipped with the latest IGBT technology and a singular PCB for improved efficiency and maintenance.

This technologically advanced inverter is extremely user-friendly and offers reliable and consistent arc performance. The Arc 140 also offers lift TIG functionality making it an ideal choice for maintenance and light fabrication.

High quality tactile rubber finish to mouldings & handle

Durable, compact inverter with distinctive design

Supplied in full colour packaging

**ORDER CODE**
JA-140

KEY FEATURES

- Professional quality IGBT inverter
- Anti-stick, Arc-force, Lift TIG
- Hot start for those difficult to strike electrodes
- 40Khz inverter frequency, high efficiency
- Compact size, lightweight and modern design
- Heavy duty 16-25mm dinse sockets
- Easy arc starting, minimal spatter
- Auto-compensation for voltage fluctuation
- High quality tactile rubber finish to mouldings and handle
- Supplied in full colour packaging
- Can weld electrodes of up to 3.2mm
- AVR generator friendly

TECHNICAL DATA

Input Voltage	AC 230V - 50/60 Hz
I _{eff} (A)	15.5
Input Power (kVA)	6
Current Range (A)	10 - 140
Duty Cycle @ 40°C	140A @ 35%
No-Load Voltage (V)	63
Efficiency (%)	85
Power Factor	0.7
Protection/Insulation Class	IP21S/F
Dimensions (LxWxH mm)	313 x 130 x 250
Weight (Kg)	4.7

OPTIONAL

The Jasic Arc 160 PFC model uses PFC technology to provide advantages such as energy saving and a wide input voltage range.

This technologically advanced inverter is extremely user-friendly and offers reliable and consistent arc performance.

The Arc 160 PFC also offers lift TIG functionality making it an ideal choice for maintenance and light fabrication.

High quality tactile rubber finish to mouldings & handle

Highly flexible dual voltage inverter for site work applications

Supplied in full colour packaging

ORDER CODE
JA-160PFC

KEY FEATURES

- IGBT inverter technology
- Wide input voltage 95-265V
- Anti-stick, Arc-force, Hot start, Lift TIG
- 33Khz inverter frequency, high-efficiency
- Compact size, lightweight and modern design
- Heavy duty 35-50mm dinse sockets
- Easy arc starting, minimal spatter
- Auto-compensation for voltage fluctuation
- High quality tactile rubber finish to mouldings and handle
- Supplied in full colour packaging
- Can weld electrodes of up to 4mm
- AVR generator friendly

The Jasic Arc 400 MMA welding inverter is equipped with the latest IGBT technology and digital meters. This technologically advanced inverter is extremely user-friendly and offers reliable and consistent arc performance. The Arc 400 also offers lift TIG functionality making it an ideal choice for industrial applications. The VRD (Voltage Reduction Device) option is an added safety function that reduces the open circuit voltage of the welding power source when welding is not taking place to a safe voltage low voltage (9V). The VRD function does not affect the welding performance of the machine.

Suitable for welding
cellulosic electrodes

High duty output for the most demanding

JT-200

KEY FEATURES

- Single PCB construction, easy for testing and maintenance
- IGBT TIG/MMA inverter technology
- High frequency inverter, high efficiency
- Anti-stick, Arc-force, Hot start 2T/4T
- Down slope and post flow
- Easy start, stable and reliable arc
- Auto-compensation for voltage fluctuation
- Compact size, lightweight and modern design
- Heavy duty 35-50mm dinse sockets
- High quality tactile rubber finish to mouldings and handle
- Supplied in full colour packaging
- AVR generator friendly

TECHNICAL DATA

Input Voltage	AC 230V - 50/60 Hz	
Ieff (A)	18.9	
Input Power (kVA)	8.2	
Current Range (A)	TIG 10 - 200	MMA 10 - 180
Duty Cycle @ 40°C	200A @ 35%	
No-Load Voltage (V)	65	
Efficiency (%)	85	
Power Factor	0.7	
Protection/Insulation Class	IP21S/F	
Dimensions (LxWxH mm)	365 x 135 x 277	
Weight (Kg)	6.12	

OPTIONAL

ACCESSORIES

The Jasic TIG 200 PFC Pulse operates on a wide input voltage range 95-265V and is equipped with powerful IGBT components and a singular PCB for improved efficiency and maintenance.

This technologically advanced inverter is extremely user-friendly and offers reliable and consistent arc performance.

The TIG 200 with high frequency starting also offers MMA functionality making it an ideal choice for maintenance or manufacturing.

High quality tactile rubber finish to mouldings & handle

Supplied in full colour packaging

PRO TIG 200P DC Pulse PFC Wide Voltage

ORDER CODE
JT-200P-PFC

KEY FEATURES

- DC Pulse TIG/MMA
- Wide input voltage 95-265V
- Single PCB construction, easy for testing and maintenance
- PFC energy saving technology
- IGBT inverter technology
- High frequency inverter, high efficiency
- Digital control, HF arc ignition 2T/4T
- Pulse frequency 0.5-200 Hz
- Easy start, stable and reliable arc
- Auto-compensation for voltage fluctuation
- Compact size, lightweight and modern design
- Heavy duty 35-50mm dinse sockets
- High quality tactile rubber finish to mouldings and handle
- Supplied in full colour packaging
- AVR generator friendly

TECHNICAL DATA

The Jasic Cut 45P air plasma cutter equipped with PWV technology and high powered IGBT components is the perfect solution for cutting low carbon steel, stainless steel and aluminium.

This user-friendly and highly portable inverter offers smooth, fast and precise cutting on material up to 15mm (steel) and a maximum of 20mm, where a severance cut is required.

Another outstanding feature of this high specification model is PFC (power factor correction) that provides substantial energy saving benefits for the user.

ACCESSORIES

The Jasic MIG 200 Compact is equipped with powerful IGBT components, multi process capabilities and a singular PCB for improved efficiency and maintenance.

This compact and portable inverter offers excellent welding characteristics and consistently reliable performance for both MIG/MAG and MMA welding processes.

The latest IGBT compact MIG/MMA Inverter, ideally suited for production, site work and maintenance

Supplied in full colour packaging

ORDER CODE
JM-200C

KEY FEATURES

- IGBT MIG/MMA multi process
- Single PCB compact welding inverter
- Stable arc and reliable performance
- Easy arc starting, less spatter, stable current and excellent weld bead shaping
- Suitable for 0.6, 0.8 and 1.0mm welding wire
- Compact size, lightweight and modern design
- Burn back control
- Ideal for production, site work & maintenance
- Can weld electrodes of up to 4mm
- AVR generator friendly

The Jasic MIG 200 Synergic Compact is equipped with powerful IGBT components, multi process capabilities, digital meters and a singular PCB for improved efficiency and maintenance.

This compact and portable synergic inverter offers excellent welding characteristics and consistently reliable performance for both MIG/MAG, MMA and Lift TIG welding processes.

Stable arc and reliable performance ideal for production, site work & maintenance.

Experience high quality weld performance and versatility

Supplied in full colour packaging

ORDER CODE
JM-200CS

KEY FEATURES

- Advanced synergic control
- IGBT MIG/MAG/MMA/Lift TIG multi process
- Self-adaptive crater filling function
- Digital amp & voltmeter
- Working frequency is beyond the audio range, greatly reducing noise pollution
- Easy arc starting, less spatter, stable current and excellent weld bead shaping
- Suitable for 0.6, 0.8 and 1.0mm welding wire
- Compact size, lightweight and modern design
- Burn back control
- Can weld electrodes of up to 4mm
- AVR generator friendly

The Jasic MIG 200 PFC Compact operates on a wide input voltage range, 95-265V and is equipped with powerful IGBT components and a singular PCB for improved efficiency and maintenance.

This compact technologically advanced inverter is extremely user-friendly and offers reliable and consistent arc for both MIG/MAG and MMA performance.

Offering a stable arc and reliable performance with the added benefit of being dual voltage makes this machine your perfect partner for site work, maintenance and light fabrication.

Supplied in full colour packaging

ORDER CODE
JM-200PFC

KEY FEATURES

- IGBT MIG/MMA multi process inverter technology - for the professional user
- Wide input voltage 95-265V
- PFC - Energy saving benefits for the user
- Single PCB compact welding inverter
- Stable arc and reliable performance
- Suitable for 0.6 to 1.0mm wires
- Compact size, lightweight and modern design
- Burn back control
- Ideal for production, site work & maintenance
- Reverse polarity
- Can weld electrodes of up to 4mm
- AVR generator friendly

ACCESSORIES

The Jasic MIG 250P is a compact MIG/MAG/MMA power source, the unit is feature rich and has synergic programs pre loaded with optimal parameters for inexperienced welders but with a provision of fine tuning for the experienced welder. The pulsed MIG mode allows for high quality welds with a spatter free finish.

Accommodates full size gas cylinder

ORDER CODE
JM-250P

KEY FEATURES

- Compact modern design, advanced IGBT technology
- Four welding modes include MMA, lift TIG, DC, MIG/MAG
- Functions such as accurate preset current/voltage, 2T/4T operation mode, synergic, gas selection, wire diameter selection, electronic inductance adjustment, and on-demand fan are available
- With synergic MIG, welding parameters can be automatically selected based on wire feed speed or material thickness
- Four roll drive unit
- DC MMA suitable for a wide range of electrodes in MMA
- Easy arc starting, low spatter, stable current which offers good weld bead shape
- Excellent weld characteristics
- Auto compensation for mains voltage fluctuation with automatic protective functions including overcurrent, overload, etc.
- AVR generator friendly
